

2018 FIRST FAMILY OF BOATS

SMOKKEER
FRATELLI

FIVE GENERATIONS IN PURSUIT OF OUR PASSION.

Cinda McKinney, Susan Graff, Sara Barrett and Peter Barrett

President Doug Smoker with grandson Henry Smoker

For more than 50 years, our family has delivered great fishing to anglers looking for an impressive boat at a sweet deal. This year is no exception, with best-in-class models for every budget. Our innovative hull designs provide superior performance, handling and ride quality, while fully rigged features packages give you better experiences on the water. Plus, Smoker Craft leads the way in flexible layouts that help you combine serious fishing with great days of family fun. So check out this exciting 2018 lineup — and find your passion in a new Smoker Craft.

STANDING STRONG ON FOUR FOUNDATIONS.

It takes a true fisherman to know what makes a better fishing experience. That's why we're constantly taking things to the next level with design, engineering and construction that deliver best-in-class aluminum fishing boats for every budget.

1 **LIVEWELLS**

Most Smoker Craft models feature the Freshcatch Pro state-of-the-art livewell system. Our pro livewells are aerated, timed and recirculating, featuring a pump that moves more water and oxygen into the tanks to keep fish active. Highlights include black thru-hulls and a PowerStream aerator and nozzle.

2 **BOW PLATFORMS**

Our exclusive raked-back bow provides for wider beams and large, open casting platforms. Flush in-floor storage and livewells give you unobstructed space for maneuvering. And the enhanced interior depth of our deep-V hulls provides added safety in rough conditions.

3 **ROD STORAGE**

Our rod storage spaces are designed to give you the ability to take along your favorite gear, access it easily when you need it and keep it safely stowed for unobstructed platforms and cockpit. Select models feature lockable bow in-floor center storage that holds up to eight rods.

4 **CONSOLES**

Smoker Craft deluxe consoles put all the controls at your fingertips. The distinctive styling goes hand in hand with an ergonomic layout, featuring easy-to-read gauges and toggle switches. Hydraulic steering comes standard or is an option on many models, while an optional sonar unit or depth finder is a great way to enhance your experience.

THE INDUSTRY'S BEST WARRANTY. PERIOD.

Only a company with the proven history and longevity of a brand like Smoker Craft can offer something like this:

- Limited lifetime warranty on hull and structure
- 6-year warranty on all components, carpet, upholstery and electronics
- All parts and labor
- Transferable to second owner

At Smoker Craft, we are committed to continuous innovation with countless details that keep our boats out in front. Here are just a few of the new features you'll find on our 2018 lineup.

SEPARATING OURSELVES FROM THE PACK

.YARBLOW. VENTILATION SYSTEM

STANDARD ON ALL *PRO MAG* AND *EXPLORER* SERIES BOATS.

Smoker Craft is proud to offer the all-new exclusive Yarblow Ventilation System that better protects your expensive fishing gear and tackle by preventing rust and corrosion. Yarblow uses pressurized air to eliminate mold and mildew in the bilge and dry storage areas resulting from humidity and normal precipitation. It's all part of our commitment to providing peace of mind and giving you more value for your investment.

How it Works

Yarblow is controlled by a convenient switch on the driver's console, which when turned on, allows pressurized airflow through the bilge and storage areas, resisting moisture accumulation. The blower will run intermittently until the switch is turned off or the charger is unplugged.

FLUSH-MOUNT SONAR

Select Smoker Craft models offer new state-of-the-art consoles that take technology features to the next level. For example, new larger flush mount sonar graphs by Lowrance are now available, giving you a better experience at the helm.

LED INTERIOR LIGHTING

Select Smoker Craft boats now feature state-of-the-art LED interior lighting for added safety and convenience. Contemporary styling and technology come together to drive the future of great fishing boats.

INTEGRATED GUNNEL TRACK SYSTEM

Smoker Craft is proud to introduce the exclusive new IGTS Integrated Gunnel Track System. This innovative gunnel design allows for easier installation of rod holders, downriggers and other accessories. The IGTS System is the ideal prep for Bert's Custom Tackle packages, developed by legendary fishermen to meet the individual needs of serious anglers. Ask your dealer to learn more.

Backed by five generations of family pride, each Smoker Craft reflects our heritage of quality and attention to detail. Our construction methods set us apart, starting with the finest materials, state-of-the-art equipment and American workmanship. From innovative hull designs to final fit and finish, we continuously strive to build boats our owners can be proud of for years to come.

PRIDE GOES IN BEFORE OUR NAME GOES ON.

TRANSOM

The transom board is made of 1.5" pressure treated plywood, which is covered by our Limited Lifetime Warranty. The board is sandwiched between the aluminum transom and a second aluminum sheet and anchored using stainless steel bolts.

SIDE PANELS

The side panels are strengthened by rolling lap strakes into the aluminum, adding rigidity to the sides that prevents the "oil can" appearance of many other boats.

PERFORMANCE HULL SYSTEM (PHS)

Our exclusive Performance Hull System is a completely customizable trim tab feature that increases speed, reduces pounding, eliminates porpoising and provides improved efficiency with less fuel consumption and engine laboring. The system allows you to tune your hull to maximize performance, depending on the weight and horsepower of your engine. Additional benefits include improved visibility, reduced wake size, better handling and less hull stress.

HYDRA-LIFT REVERSE CHINE HULL

Our exclusive high-performance hull provides superior lift to get you out of the hole and on plane quickly. The reverse chine design keeps the bow down during acceleration, provides sports-car-style turning agility and offers exceptional stability both while running at high speeds and while at rest.

SPRAY RAILS

Spray rails are rolled into the side panels, giving a much cleaner appearance and eliminating the line-breaking rough edges found on many other boats. The combination of spray rails with the Hydra-Lift reverse chine design delivers the driest ride in the industry.

YARBLOW VENTILATION SYSTEM

The all-new exclusive Yarblow system protects your gear and tackle from rust and corrosion by using pressurized air to eliminate mold and mildew in the bilge and dry storage areas. Standard on Pro Mag and Explorer series boats. See page 3 for more details. Only available on Pro Mag and Explorer Series boats.

IGTS (INTEGRATED GUNNEL TRACK SYSTEM)

The exclusive new IGTS Integrated Gunnel Track system is an innovative gunnel design that allows for easier installation of rod holders, downriggers and other accessories. See page 4 to learn more about this exciting new feature. Only available on Pro Mag and Explorer Series boats.

LED LIGHTING

Pro Mag and Explorer feature the added style, safety and convenience of interior LED lighting.

NEX GEN HULLS

Smoker Craft's next-generation hulls (on select Pro Mag and Explorer models) feature a longitudinal stringer system for internal support, instead of cross ribs. The stringer system is welded together in a jig to ensure proper alignment and is riveted to the hull bottom to create a uniform hull structure.

AIRS

The Hydra-Lift Hull is supported by Smoker Craft's exclusive Advanced Integrated Rib System (AIRS). This integrates heavy machine-formed, hat-shaped ribs in the bow with cross ribs on 10" centers on the bottom. The bow ribs conform to the contour of the bow and angle toward the cross ribs to add strength to the critical area of the hull when the boat is running. Floor stringers are fastened to the cross ribs to support the floor panels and enhance hull strength.

GAS TANK INTEGRATION

We place the gas tanks below the floor toward the center of the boat between the floor stringers to centralize the weight of the fuel. This gives the boat a softer ride and helps keep the bow down.

5-KEEL CONSTRUCTION

While many manufacturers have stopped adding keels, we continue to use up to 5 keels on our hulls to provide longitudinal strength and protect the bottom when beaching or trailering. In addition, the keels help the boat plane quickly by breaking the water during acceleration. They also improve tracking and help hold position while fishing.

ONE-PIECE BOTTOM

The Hydra-Lift Hull begins with a one-piece bottom, unlike many other manufacturers. Aluminum gauge ranges from .100" to .125".

CONSTRUCTION YOU CAN COUNT ON.

UPHOLSTERY

Produced in-house for quality control and customization, Smoker Craft upholstery is precision cut and installed using only stainless, non-corrosive fasteners. Cushioning foam is biocide treated to help prevent mildew and fungal growth that can discolor vinyl. This process is a key differentiator when comparing Smoker Craft to other manufacturers.

CARPET & VINYL

Smoker Craft casting platforms and decks are covered in marine-grade carpet that is both glued and stapled, while cockpits feature easy-to-clean vinyl. Optional snap-in carpet can be added over the vinyl for added comfort.

eVA SOFT TOUCH TRACTION MATS

Easy to clean. Mold, mildew and stain resistant. Superior wet or dry traction.

FLOOR PANELS

Our pressure treated plywood floors are 5/8" in the cockpit and 3/4" on the casting decks. They carry a lifetime warranty and will not warp or rot.

INJECTED FOAM FLOTATION

Unlike other manufacturers, we inject foam flotation into pre-routed holes in the floor panels to fill the entire cavity under the floor. The adhesive property of our foam allows it to bond to both the floor panels and the hull providing enhanced support and excellent sound dampening.

TWICE-BAKED PAINT FINISH

The Smoker Craft paint method includes 3 coats of base urethane and 3 coats of accent color, then baking under infrared heating coils after each step—giving it a twice-baked, diamond hard finish that is resistant to chipping and fading, looking great for years to come.

ZINC CHROMATE PRIMER

Zinc Chromate primer is chemically etched into the aluminum hull, forming a corrosion-resistant surface. This also creates an even, bondable surface for the final paint layer.

HIGH-GRADE ALUMINUM

Smoker Craft boats start with 5052 H34 Cold-Rolled Aluminum for its superior strength, hardness and corrosion resistance. Computerized fabrication equipment delivers precision components and ensures consistent quality.

DOUBLE RIVETS

The sides and transom are riveted with a double row of airplane-style rivets on the seams on all models 17' and above. The rows are offset to completely seal the seam.

171 Pro Mag

SMOKER
CRAFT

PRO MAG

LAUNCHING A BOLD LEADER.

Fish like a pro with the 2018 Pro Mag series. Our exclusive Yarbrow Ventilation System uses pressurized air to eliminate mold and mildew in the bilge and dry storage areas to better protect your gear. And to ensure Pro Mag's best-in-class status, it features the IGTS Integrated Gunnel Track System for easy, reliable installation of rod holders, downriggers and other accessories. Other highlights include flush mount sonar units, contemporary LED lighting and Freshcatch Pro livewells.

ANGLER

EXACTLY WHAT YOU NEED, NOTHING THAT YOU DON'T.

The Angler is designed and built for the pure joy of fishing. Every feature has been thoughtfully added to deliver high-performance without sacrificing simplicity and versatility. Two wood free fishing seats, durable casting platforms, lockable rod storage and the high-tech Humminbird PiranhaMAX4 Sonar Unit come standard. Add to your fishing experience with options like a Humminbird Helix 5 GPS, a trolling motor, or an extra fishing seat.

FRESHCATCH 25-GALLON LIVEWELL

AMERICAN ANGLER

WHEN IT'S TIME TO BRING YOUR "A" GAME.

No matter where you love to fish, the American Angler Series by Smoker Craft is up to the challenge. Big water? Rough weather? These all-welded hulls are ready for anything with their exclusive Torsion Beam Construction built for exceptional strength and shock absorption - plus the peace of mind of a lifetime warranty.

THE INDUSTRY'S BEST WARRANTY. PERIOD.

Only a company with the proven history and longevity of a brand like American Angler by Smoker Craft can offer something like this:

- Limited lifetime warranty on hull and structure
- 6-year warranty on all components, carpet, upholstery and electronics
- All parts and labor
- Transferable to second owner

TWICE-BAKED PAINTED HULLS

American Angler full painted hulls provide showroom looks designed to last for years.

MACHINE FORMED RIBS*

Our unique machine formed ribs are stronger and more flexible than the two-ply aluminum used by many competitors.

TORSION BEAM CONSTRUCTION*

Instead of the flat I-Beams that you find in many boats, American Angler uses our exclusive Torsion Beam Construction (TBC) stringer system for exceptional strength and shock absorption.

ALL-WELDED CONSTRUCTION

Every American Angler series boat offers the toughness and reliability of all-welded marine-grade aluminum construction that's backed by a lifetime warranty.

INJECTED FOAM FLOTATION

American Angler models feature injected foam, not poured, between the floor and hull – filling all air pockets. This provides greater strength and buoyancy and reduces noise.

* Pro Lodge, Pro Tracer and Osprey series

LIVEWELLS

From evening dinner to that coveted trophy fish, Smoker Craft's FreshCatch aerated livewells keep every catch safe and fresh.

FRESHCATCH LIVEWELL

Our aerated livewells are timed for convenience and feature a PowerStream nozzle, a single bilge and black thru-hulls.

FRESHCATCH PRO LIVEWELL

Our pro livewells are aerated, timed and feature a recirculating pump to move more water and oxygen into the tanks to keep fish active. Highlights include black thru-hulls and PowerStream aerator and nozzle.
